The simplicity of the Artisan® panel is its best design feature. Uniform dimensions and a clean appearance allow the designer to plan modules, eliminate complicated pieces and follow wall curvatures. The Artisan® panel can be vertical, horizontal, perpendicular or skewed to the building line, allowing the designer multidimensional freedom to create. The Artisan® panel is available in two profiles: a flat profile and a profile with two beads.

FEATURES AND BENEFITS

- Artisan® panels use the positive fastened method and are attached directly to the substructure. The fastener is concealed behind the flush face.
- Artisan® panels are used for soffits and interior liners.
- Artisan® carries Florida approvals.
